

Fire # Sign Replacement Pamphlet  
Mar 30, 2012

### **TOWN OF FULTON FIRE # SIGN REPLACEMENT**

- The Town of Fulton has approved a proposal from Cedarburg Landscaping Co., Inc. to complete the replacement & installation of all fire number signs in the Town of Fulton. This project should be completed by the Fall of 2012.
- The new signs will be flag style, double faced, 3M High Intensity Prismatic sheeting, red base with white lettering, with UV-stabilizer applied over the finished sign, 20"x8" on a galvanized post.
- The new sign shall be installed so that the plate is perpendicular to the roadway.
- The new sign will be installed in accordance to the Rock County Address Sign Specifications – “no more than 3’ from the road right-of-way, and between 5 and 10’ from the driveway”.
- If you already have the new flag style sign, your sign will not be replaced.
- Old signs will only be removed if they are on a sign post. The company will not remove signs if they are located on personal property.
- Property owners are responsible to have the area cleared of branches or obstructions to allow a clear sight of the sign from the road.
- Once the signs are installed it is illegal to remove and/or move it.
- It is necessary that the sign be located in a position that emergency responders can easily view them when approaching your address.
- If you do not receive a new fire number sign by Sept. 1<sup>st</sup>, 2012, please contact the Town Hall @ 608-868-4103 to advise of not having a new sign.
